REPORT OF THE INSPECTORS.

ALABAMA PENITENTIARY,
October 24th, 1877. }

To His Excellency, George S. Houston,

Governor of Alabama:

SIR—In accordance with the requirements of section 3845 of the Revised Code, we now submit our Annual Report, showing the workings of this Institution for the year ending September 30th, 1877.

Convicts are employed at labor outside the walls of the Penitentiary by the following named persons and corporations, at the following places, and in the following numbers, to-wit:

Fifty are employed by the New Castle Coal Co., at New Castle, in Jefferson county.

Fifty-eight by the Eureka Co., at Helena, in Shelby county.

Twenty-nine by the Alabama Iron Co., at the Alabama Furnace, in Talladega county.

Eighteen by Jackson, Morris & Co., at Clanton, in Chilton county.

Eighteen by L. M. Parker, near Equality, in Coosa county.

Seventy by Thomas Williams, near Wetumpka, in Elmore county.

Forty-eight by Thomas Williams, at the State Farm, in Montgomery county.

Seventy by Farriss & McCurdy, near Lowndesboro, in Lowndes county.

Seventy by Gaius Whitfield, near Linden, in Marengo county.

Twenty-seven by B. S. Smith, near Dadeville, in Tallapoosa county.

Forty-five by C. T. Pollard, Jr., near Pike Road, in Montgomery county.

Fifty-five by J. W. Comer, near Harris P. O., in Barbour county.

Sixty by J. G. Bass, Warden, between Wetumpka and Elmore Station, on the S. & N. A. R. R.

The number of convicts at labor outside the walls of the Penitentiary on the 30th day of September, 1877, was 557.

We have visited all these convicts quarterly, and some of them oftener. Except under extraordinary occurrences, we deem quarterly visits sufficient to insure to the convicts proper and humane treatment. We endeavor to keep the contractors unadvised of our visits, so that we may see the convicts in their every-day life. We inspect the food furnished while we are present, and examine the provisions kept for them, to see that sound and wholesome food is provided for them. We also examine the quarters furnished them, the hospital for the sick, the quantity and quality of clothes, and, besides this personal inspection, in private we propound the following questions to the convicts, to-wit:

1. What do you get to eat, and how often? Is it enough and wholesome?

2. How often do you wash and change clothing? Are you or your quarters afflicted with vermin? Do you have shoes, hats and clothing enough to keep you comfortable?

3. Have you been punished? How often? For what offense, and what kind of punishment was inflicted?

4. Have you been sick? How long were you sick? What was the nature of your disease? What physician attended you?

5. At what time do you commence work in the morning? What recess do you have at noon? At what time do you stop work in the evening?

6. Have you any other complaints to render?

In this way, we think we keep well advised of the general treatment of the convicts; and, by being very positive in requiring our Rules and Regulations strictly adhered to, we think we can assure your Excellency the convicts everywhere are being well cared for and humanely worked.

We call your Excellency's attention to our recapitulation of the Tabular Statement. This paper contains, in brief, all the important facts of the table. It shows there have been forty-five deaths during the year. The Physician's Report informs us that a very large per centage of the deaths at the walls was of prisoners who came to the Penitentiary with chronic and incurable diseases. The table shows that there were fifteen deaths of the convicts em-

ployed in the mines. The average number in the mines during the year has not exceeded one hundred and twenty. This is a heavy per centage of mortality. We account for it by the prevalence there, during the winter and spring months, of pneumonia. We made some suggestions of a sanitary character, during the prevalence of this disease, which were adopted, and which has assured since a better state of health. These contractors having adopted the sanitary regulations suggested, with good results, will, we think, adhere to them, and, for the future, we predict a better state of health for the convicts employed in the mines.

The whole number of convicts on the farms and at out-door work is four hundred and five (405). [This number does not include those at the mines, nor those employed by the Warden on the railroad.] Of this number, only eighteen (18) have died. Five of these deaths were from sunstroke, and all occurred on the same day—July 5th—though at three different places. In our investigations to ascertain the cause of these deaths from sunstroke, we found nothing irregular. The convicts whom we questioned, stated that their employers had been very lenient with them on that day, and had required the lead man to keep a very moderate gait. We, therefore, think they are to be accounted for only from the excessive heat of that particular day. In Lowndes county, where two of the deaths from sunstroke occurred, there was a death of a citizen on the same day, and from the same cause. We have been thus particular in accounting for the number of deaths reported in the Tabular Statement, because we think, with these explanations, we are warranted in saying the convicts have enjoyed unprecedented good health during the year. Many of the monthly reports sent the Warden showed not one on the sick list.

With reference to the escapes which have occurred during the year, we ask your attention to table No. 9 of the Recapitulation. We have made every effort we could to induce such diligence as would prevent, in a great measure, these escapes. We feel that there is no duty in the Penitentiary system of more vital importance than the safe keeping of the criminals. There is no duty we have given more thought and attention, and, by a careful examination of the sub-table above referred to, your Excellency will discover that with some contractors our success is gratifying, while with others we have had bad luck. We are hopeful of better results for the year now beginning.

The Warden's Report to us of his transactions during the year, is herewith transmitted. His written Report and Financial Statement are full, and to them we ask your Excellency's special attention. The improvement of the buildings and grounds, and the purchase of the items of property therein spoken of, have been done with our approval. The plat of land purchased by the Warden has been securely fenced and thoroughly drained. Upon one part of it, this year, a great quantity of vegetables have been raised. The other part has afforded an excellent pasture for the live stock belonging to the penitentiary. This pasture and the vegetables will enable the Warden, this winter, to kill about six thousand pounds of pork, at but little cost. We think the net results from this land annually will reach the full sum paid for the land.

We deem it unnecessary to anticipate what will be the benefits to the State by the construction of the railroad from Wetumpka to Elmore Station, on the South & North Alabama Railroad. We think a statement as to this enterprise will more properly belong to the next Report. The Warden, however, has discussed this matter in his report. We think his theory plausible. The work of this road is now under full progress, and is well nigh half completed. With favorable weather, we anticipate its completion at an earlier day than the 1st of March, 1878, the time set apart by the Warden for its completion.

We also submit, for your Excellency's careful perusal, the Chaplain's Report. He states, correctly, that the law does not provide a Chaplain for the convicts at labor outside the walls of the Penitentiary. He was not informed, however, that the Warden, seeing this deficiency in the law, had caused a provision to be put into his contracts requiring of each of them to afford the convicts preaching at least once a month. The Joint Committee, who visited the Penitentiary last year, had something to say on this subject, which intimated that the convicts, in this respect, were neglected. We disagree with them. Under our regulations, the convicts within the walls have religious services weekly, and at all other places monthly. With the exception of Sabbath Schools, which, with the citizens, is intended for children mainly, we submit to your Excellency if we do not afford about the same religious privileges to these criminals as is enjoyed by the good and law-abiding citizens of Alabama; and when the State has afforded

her criminals these privileges, in accordance with the usage of civilized communities, has she not discharged her duty to them? We think that this has been done, or else we would make such recommendations as would guarantee it to them. The Warden informs us that our Chaplain has manifested much zeal and ability in the discharge of his duties, and has exercised a moral influence over the prisoners, which has been beneficial in their management.

We call attention to the Physician's Report, which is made out according to law, is full and explicit, and includes the convicts employed by Mr. Williams, as well as those within the walls. The hospital is neatly kept, and the sick under his charge have every attention necessary to their comfort and recovery.

It is truly a cause for congratulation to know that after having incurred every expense necessary to the comfort and safe keeping of the convicts, the Warden has still been able, from their earnings, to pay over to the State Treasurer fourteen thousand dollars in cash; to pay one-eighth of the debt incurred in the purchase of the "State Farm," which, with interest, amounts to nine thousand three hundred and seventy-five dollars; and has, in excess of the cash on hand at last report, five hundred and sixty-four and forty-nine one hundredth dollars. Besides, the accounts for labor, uncollected for this year, exceed those for last year in the sum of four thousand three hundred and sixty-six and seventy-nine one hundredth dollars; the improvements on the State property in his charge he estimates at three thousand six hundred and fifty-one and thirty-five one hundredth dollars; and the amount of labor performed on the Branch Railroad he estimates at two thousand eight hundred and one dollars.

In the discharge of our duties, we have had the courteous cooperation of all the officers connected with the Penitentiary, and, in matters of importance, have availed ourselves of your Excellency's valuable advice and aid; for all of which we feel thankful.

Respectfully submitted.

J. M. BRADFORD,

A. T. GOODWYN,

J. H. JUDKINS,

Inspectors Alabama Penitentiary.

REPORT OF THE WARDEN.

ALABAMA PENITENTIARY,
Wetumpka, September 30th, 1877. }

To Messrs. J. M. Bradford,

A. T. Goodwyn, and J. H. Judkins, Inspectors :

GENTLEMEN—It is a duty and a pleasure to submit this, the Third Annual Report of my administration of this Institution, for your consideration.

I am enabled, through the blessings of Providence, and the valuable aid and assistance afforded me by yourselves, to report to you, and through you to His Excellency the Governor, the well-being of the convicts, the preservation and improvement of the property of the State in connection with this institution ; also, the financial success of its workings.

There is nothing, however, connected with its workings and prosperity more gratifying to me, than the conviction, that the mild and humane treatment sought to be practiced towards the inmates of this prison under the rules and regulations established for its management, gives hopeful promise, in a large majority of cases, of the reformation of the convict, one of the grand ends aimed at by the law.

From Tables A, B, C, D, E, and F, you will find a full expose of the financial workings and condition of the Institution for the fiscal year just ended, and I feel assured you will concur with me in saying that, considering the depression in business throughout the country, the frightful upheavings of labor against capital of some of our sister States, its consequent injury and derangement of the general business of the country, we have cause to congratulate ourselves as to our financial success, as well as the sound and prosperous condition so evidently attending the management of this Institution—a position that forbids it ever again burthening the tax payers of the State ; as, also, an encouraging assurance of

its being a potent adjunct with them in putting money into the State Treasury instead of drawing it therefrom. That it should ever have been otherwise, will soon be forgotten, and even now sounds almost fabulous. These results are due, as you are aware, to the wise, efficient and untiring ability and aid afforded by the administration of the State government by His Excellency, Geo. S. Houston.

During the past fiscal year, I have seen proper, with your concurrence, to purchase of Thomas Williams a plot of thirty acres of land immediately in front and adjoining the prison grounds, and for which I paid him the sum of three hundred dollars—a price entirely satisfactory to myself and to you. I have incurred additional expense in fencing, ditching, and bringing into full culture said lands. The quantity of vegetables I have succeeded in raising upon said lands, and their value as food, and as promoting the health of the convicts, has been far beyond my own expectations.

The last General Assembly of our State passed an act authorizing the Warden of the Penitentiary to contract with the South & North Ala. R. R. Co. for the grading, &c., of a branch railroad from Elmore Station to some point at Wetumpka, on the western bank of the Coosa river. Under that act I was unable to effect a contract with said Railroad company; but regarding it as of vital importance to the permanent welfare and success of the Institution to be connected by rail with that great road of our State, and taking the act referred to as a legislative decree of the State to the same effect, and falling back upon the provisions of the *general law* defining my powers and duties as Warden, with your concurrence, I signified my willingness to grade, trestle, and furnish cross-ties for said road.

Thus, upon the following terms, a contract was entered into between Messrs. Williams & Kyle, and the said South & North Ala. R. R. Co., and transferred to the Warden and his successors in office for the use of the State: All the fees, charges and tolls for the term of twenty (20) years from the time the regular trips over said Branch Road shall be commenced, for passing over said Branch Road the following persons and things, to-wit: The Warden, Deputy Warden, Clerk, Physician, Turkeys, and Guards of the Penitentiary, and all officers of the State on official business connected with the Penitentiary; also, all supplies or material going for the use of the same; also, all sheriffs or deputies, or

guards of convicts, or prisoners going to the penitentiary, and all discharged prisoners returning from the same.

Consequently, and pursuant thereto, on the 20th day of August last, I began the task of grading, &c., said Branch Road, and am still pressing said work, and purpose so to do till the same is completed, which I hope to do by or before the first of March, 1878.

The benefits to result to the treasury of the State, as also to the welfare of this Institution, by the building of said road, aside from the increased resources for taxation thereby developed, will be highly remunerative for the labor bestowed by me in the doing of said work, and I have no doubt of your ready concurrence with me in this belief.

As to the sanitary condition, hospital accommodations, and the religious culture and privileges extended to and continuously afforded the convicts, I refer you to the reports of the Physician and Chaplain, which will by them be submitted to your body, and which I have no doubt will be satisfactory.

To you, gentlemen, and all the officers of the penitentiary, I return my sincere thanks for your unvarying kindness and readiness to aid me in the discharge of my arduous duties as Warden of this Institution.

Respectfully, your o'bt serv't,

J. G. BASS, *Warden.*

REPORT OF PHYSICIAN.

ALABAMA PENITENTIARY,
October 20th, 1877. }

To the Board of Inspectors of the Alabama Penitentiary:

Gentlemen—It affords me great pleasure to be able to report, at the close of another year, the continued favorable sanitary condition of the State prison.

There have been treated during the year three hundred and fifty-one (351) cases of various diseases and accidents.

Of these, fifty-three (53) were permanently diseased when received, and twenty-one (21) sent from places at which they had been hired, as permanently disabled, either from chronic sickness or injuries.

The number of deaths were twelve (12):

James Nelson, of consumption.

Frank Bradley, of chronic dysentery.

Lewis Wilson, of apoplexy.

Sam Hardy, of chronic diarrhoea.

Huldy Turnbull, of consumption.

Henry Walker, of marasmus.

Joe Williams, of consumption.

Felix Johnston, of angina pectoris.

Joe Murphrey, of chronic diarrhoea.

Judge McGee, of chronic cerebritis.

Hirvee Hoke, of paralysis.

Thomas Norrell, of epileptic mania.

I have also the pleasure of reporting that the hands employed by Mr. Thomas Williams have enjoyed remarkably good health during the year. The following are the deaths, with the causes of death:

Osborn Long, of sunstroke.

John Smith, congestive chill.

Redmond Jackson, senile marasmus.

Miles Fuller, consumption.

Sam Skelton, congestion of brain.

Joe Hill, chronic pneumonia.

Bén McIntosh, dropsy of heart.

The Warden and his officers have rendered every possible aid in their power, both as to the prevention of disease and adding comfort to the convicts when sick. Mr. Williams and his superintendent have also been prompt in carrying out every sanitary suggestion I have made to them. I deem it my duty always to look to the interest of the convict, and if I commit an error, have preferred that it should be in his favor.

With the highest appreciation of the universal kindness extended to me by all with whom I have been associated, I am, most respectfully, your obedient servant,

EDMUNDS MASON, M. D.,

Physician to Ala. Pen'y.

CHAPLAIN'S REPORT

TO THE BOARD OF INSPECTORS OF THE ALABAMA PENITENTIARY, FOR
THE YEAR ENDING SEPTEMBER 30, 1877.

Gents—Our part of the work, in attaining the great end designed in the institution of prisons, penitentiaries and all places of confinement for transgressors, we regard as not the least. In magnitude and importance it measures as much, if not more, than any other department. If the ultimate aim of a penitentiary is gained in swelling the treasury, possibly—or in inducing a slavish fear of the law, then we confess we are interlopers, and our work simply burdens the State by imposing a cost, of which it would do just as well to be rid. But, if it is reformatory, as it should be and was intended by the law makers to be, give the ministry of the word of God a high place in your measures—give it a consideration commensurate with its value and its own power.

Our system of work, as it now stands, is very imperfect. In the first place, our ministry reaches but a small, a very small proportion of the whole number of convicts, which is the State's fault, as it provides the preaching of the word only for those in the "walls." In the next place, we are deficient of books, periodicals, and such like instruments, which are telling auxiliaries in our work. It is true, the Warden has furnished a few books and papers, but then there could be a much larger outlay in this direction, with no small profit.

We can not say our own labors have been systematic. We have simply preached the naked truth, regularly every Sabbath. We have had no classes or Sabbath school exercises, but have tried by free intercourse and pastoral work with the prisoners, to effect such good in this field as came within our view. As to results, we are not competent to speak. The prisoners all manifest interest and pleasure in the ministry of the word. The amount of *permanent* good done, does not come within the purview of this report.

We suggest nothing, we recommend nothing. Vital changes could be made in this department. We leave this with the Executive of the State and his great master.

Thanking the officers for their unfailing courtesy and deference, we respectfully submit the above.
